

Design your personal ambiance
with **UNLAND®SUN** Plissés which will change your home
and you will feel as a snug in a bug in a rug.

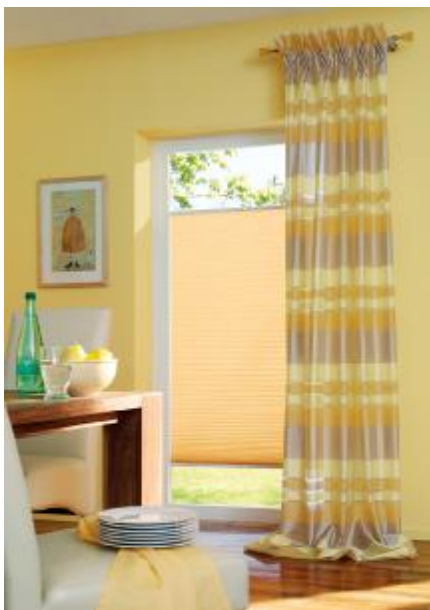

Light and shadow in its most beautiful form

The UNLAND®SUN-Plissés can be used for different window forms made to measure and decorative solutions will be offered, which will control the light and solar radiation and will shelter from the looks.

The UNLAND®SUN Plissé-Collection offer you a trendy selection of Plissé - fabrics and designs: transparent, lights fabrics will give your rooms a comfortable living atmosphere. Blackout fabrics will shelter from the looks. You'll place varying accents with strong and different designs. Pearlescent painted fabrics granted a high solar radiation and they are resistant about alkaline detergents, insects' dirtiness und condensed water. The UNLAND®SUN CS-Plissé - fabrics perform the criteria of DIN 4102 (flame-retardant) und therefore brilliant adapted for using in the object projects.

UNLAND®SUN Plissés can be used on almost every window in different forms: I fit will be a dormer window, gable window, arched window, winter garden or exceptional windows. The control-options are multiplex in comfort and functionality. You have the choice between: control-bow, rod, cord lock or motorised.

In this UNLAND®SUN Plissé-collection you'll find a variation of fabrics and designs from transparent up to black-out – with this you'll have soft filtered light and textile atmosphere.
